## The Stock Market.

Special to the Gazette.

New York, Aug. 14.—A heavy selling movement in Louisville was the feature of the stock market this morning. London houses were believed to be selling. The unfortunate result of the ill-timed effort made ently to issue some stock is doubtless reason for the weakness of Louisville, and the bad judgment displayed in declar-ing the last dividend is another. The col-lapse of the Southern boom is another. Union Pacific was fairly well supported, at there seemed to be a disposition to let alone until something more definite could be known about the relief plan. St. Paul showed great strength on publication of net earnings for June. The general market was strong notably Missouri Pacific and Northern Pacific. There was a relapse in the early afternoon, but after that the market became very strong again, pourly all let became very strong again, nearly all he active stocks obvancing more than I coul above yesterday's closing, but prices shaded off toward the close, so that finals were fractionally above westerday. the and Union Pacific were weak features.
Call money loaned up to 4 per cent.
Railway bonds were generally lower in

the early dealings but strengthened later.

Among the features of the trading were Atchison incomes, Oregon improvement 5's and Texas and Pacific 2's.

### Outlook for Cotton. Special to the Gazette.

New Orleans, La., Aug. 14.—Atwood, Violett & Co., say: Futures—An advance of 7 points here and 3 in New York to-day is attributable to some reports of boll worms in North Texas, and that in a few sections rains are rather abundant. It requires but little to alarm the shorts. It is a market of sunshine and clouds. The former causes an easier feeling and the lat-

Our New York telegrams say the steadiness there is a partly due to light receipts of new cotton, while another says the lack of business and some buying on foreign orders caused the advance. The receipts of new cotton at New Orleans and Galveston combined to have been than hast year. To have on bined are larger than last year. New York, Aug. 14.-The stock market Ask for, Aug. 11.—The Stock market hesitated for some time to-day, but grad-ually gathered strength while broadening out considerably. Grangers and Western stocks in general, however, monopolized all interest in the market, and one of the most encouraging signs of the times is the ap-pearance of Western operators in the mar-ket as buyers of their favorite stocks, alough none of them are specially promi well distributed over the list. Union Pawent distributed over the iss. Union Pa-cific was still less prominent in the dealings to day, and being firmly held in the neigh-borhood of 35, the inference is that its prominence for the time being and the deterrent effect upon speculation is over for

Louisville was a leader during most o the day, and while there was considerable buying of it to cover shorts London was a seller, and it was heavy to weak at first, though later recovering somewhat.

This work is a masterpiece of superb archiecture and a gem of rare beauty, heated by steam and lighted by electricity.

A music faculty composed of teachers of the best European and American training, whose best European and American training, whose fitness has been tested by years of experience, and with a full supply of new and elegant instruments, offer facilities for the study of music similar to those found in the best conservatories of the Old World.

Parents who are seeking the most superior musical advantages for their daughters, or ladies contemplating the teacher's profession, who wish to learn to interpret the world's great composers in the most artistic style, will find that Hardin college affords, in a pre-eminent degree, the advantages desired.

Students who complete the course in a saffactory manner will be awarded a diploma with the title Baccalaurea Musicæ. Candidates for graduation must be examined in the presence of the music faculty.

Students who become proficient in piano or voice, are awarded diplomas with the title of Proficient.

The faculty will aid graduates in every honorable way to secure desirable positions. In the past two years thirteen young ladies from this conservatory have been called to fill positions in schools and colleges in four states. The grand prize in music is a \$1000 piano, made by Hallett & Davis of Boston, and pronounced by leading planists of the Old World the best made in America. fitness has been tested by years of experience,

Rice—Fair demand and firm. CHICAGO, ILL., Aug. 14.—This was another wild and wearisome day in the wheat pit on the board of trade. Prices rarged up and down over a very wide range, without any apparently sufficient cause, and both buils and bears were alternated on gridlenes, though advecates of high prices had the best of the situation, and improved their opportunity to the extent of ultimately carrying the price to a point 4gc chove the closing figures of vesterday, and the close was 4gc higher.

The buils' long-delayed prediction of "dollar wheat" was finally verified, and they halled the bur round figures with a mighty shout. This occurred close to the end of the session. It was the culmination of a rapid advance of 2g. Nowfort was made to put it higher, and it was finely was made to put it higher, and it was

effort was made to put it higher, and it wildoubtless put to that figure for its moral effdoubtless put to that figure for its moral effect.

Corn was strong but unsettled, though not showing as much strength as wheat. Shorts were nervous over the advance in the wheat pit, but it was difficult to buy, owing to the scarcity of offerings. September opened at 55-25%, and sold up quickly to beside in the non freer selling and the let-up in the wheat boom, it went to 5%, then rose to 59-20, but broke eventually to 58-20, and reacted to 59-20. Late in the session wheat went souring. Corn touched 60c, but closed at 59-20.

Provisions were quiet but firm.

Pork, for September delivery, kept between 80 80 and 89 80 till wheat soured. Near the close pork jumped to 810-12%, and closed at 810-10.
